Commentary

The notice in the *Salzburger Intelligenzblatt* of 15 Sep 1787 regarding the auction of Leopold Mozart’s estate on 25 Sep has long been known to Mozart scholars (*Dokumente*, 261–62, citing Valentin 1943, 93). This earlier notice of Leopold’s death in the *Intelligenzblatt* of 2 Jun 1787 is mentioned, but not transcribed in *Dokumente* (258), in the commentary to the entry regarding Leopold’s death in the diary of Dominikus Hagenauer on 28 May 1787. The notice from the *Intelligenzblatt* is transcribed in Valentin 1943, 93, note 14. The cause of death given in the *Intelligenzblatt* is “Auszehr” (“Auszehrung,” consumption).
